HAY QUESTION UNDER CONSIDERATION OF GOVERNMENT.

Arrangements are being made by the Provincial government to purchase of hay in Ontario and Manitoba. The Minister of Agriculture stated that if possible at least one hundred thousand tons would be secured in this way.

The railway tariff regulations for the shipping of stock north or feed south under the free freight are:

1. The rate shall be applicable only to ranchers.
2. The rate shall not be applicable to government institutions or to railways owning stock.
3. The rate shall be applicable only in cases where relief is sought has been owned by the applicant prior to July 1st, 1919.
4. The rate shall not be applicable to owners of 100 or more head of cattle or 300 or more head of sheep.
5. Each applicant shall be entitled to ship not more than seven carloads of feed, and in case less is required, two and a half tons for each cow or work horse (five sheep to be equal to one cow).
6. No hay shipped under reduced tariff shall be sold without permission of the deputy minister.
7. No certificate shall be granted when the price of feed exceeds a reasonable market value, and when handling and profit exceeds a reasonable price.
8. Applicants may join in co-operative shipments of stock.

The Armada U.F.W.A. met at the home of Mrs. E. E. Saunders August 6th. In response to roll call favorite recipes of cole deserts were given, followed by finishing the Red Cross work left undone.

Refreshments of ice cream cake and coffee were served. The next meeting will be at the hall August 23, the September meeting is changed to August 27th., and will be at the home of Mrs. L. R. Shick.

PRIZE WINNERS OF LOMOND FAIR.

The prize winners of the Lomond fair will be printed as we find space and opportunity. We will make a brave beginning with this issue.

Mr. Haley informs THE PRESS that he shipped eight carloads of cattle to LaCombe last week two of his own brought \$3,836. The remaining six for neighbors brought about the same average. Mr. Trumbull the buyer is traveling this country extensively buying cattle. Albert Graham, of Wheat Centre shipped two cars of cattle to Chicago and will ship more this goes to show there is no great cause to worry over the market and the demand is increasing.

A wild man was seen on the streets of Lomond the first of the week. The appearance of this cave man created a great deal of consternation amongst the villagers, after a considerable effort on the part of a few he was finally rounded into the livery barn and being guarded, while one of our enterprising citizens is negotiating with Barnum, and Bailey with a view to selling said wild man to the circus.

NOTES

In regard to the available supply of feed in eastern Saskatchewan, Manitoba, and Ontario, exhaustive inquiries have been made by the U.F.A. and it was ascertained that in Ontario that a large supply of can be obtained at prices in the neighborhood of \$20 per ton.

C. Rice-Jones, vice-president and General Manager of the U. G.G., stated that the company would do everything possible to obtain supplies of hay for the farmers who need it, to get seed where necessary, and also to assist the small farmers who need to sell their stock, in marketing shipments co-operatively. There is a good market in Manitoba, also in the United States where stock cattle are in great demand. "While we do not want to see stock go out of the country," he stated, "we are prepared to get the highest prices for those who wish to sell."

Speaking of the free shipment of hay to the drought-affected areas, arranged by the governments and the railways, Mr. Rice-Jones pointed out these were only available in the prairie provinces.

As Ontario has a large available supply of feed the extension of a free rate of shipment from that province would be of the greatest advantage to the farmers of the west.

Conditions under which farmers in the drought-affected areas may obtain free shipment of hay and haying outfits, and ship their stock at reduced rates to points in the prairie provinces are outlined in a circular sent out to the local unions of the U.F.A. by Secretary H. H. Higginbotham. The letter also quotes a communication from H. A. Craig, neputy minister of agriculture for Alberta, in regard to these regulations. The circular reads in part:

"The Dominion and provincial government will share equally the full freight on hay and haying outfits except on the McArthur lines, the Edmonton, Dunvegan, and B. C. lines and the Alberta and great Waterways railway. On livestock the the provincial and Dominion government will share equally the outbound freight from dry

areas to destination and one-half of return freight. On the McArthur lines, they will pay the freight on hay and haying outfits and livestock. It will be possible who own 100 or less head of cattle or 300 head of sheep to ship two carloads north for feeding or seven cars south for feed.

The railway tariff provides that a stock owner will be entitled to the rates provided he produces a shipping certificate. To secure this certificate application must be made on forms from the local agent. It will be necessary for the applicant to

secure from a bank manager or a secretary of the municipality a sworn statement of the bonafides of the applicant.

The railway tariff is subject to regulations given on page one.

In case some of our pessimistic readers think these articles of encouragement in the foregoing pages are not worth smiling over let him remember the recent rains which, although they are a valuable help to the feed and pasture, would have helped immeasurably more six weeks ago but put the past aside and think of the future. These fall rains are putting the ground in shape for next year. Fall work has commenced and once more there is life in what was hitherto a dead country.

DRASTIC ACTION BY BRITAIN.

London Aug. 9.—The government bill providing prosecution and penalties for persons guilty of profiteering, the text of which was made public yesterday, empowers the board of trade to investigate prices, costs and profits, and to and to investigate complaints of unreasonable profits, whether wholesale or retail.

After investigation, the board of trade is authorized to dealers what is a reasonable price and require the article to be sold at that price. In case of failure to sell articles at the specified price the board is empowered to take proceedings offenders before a court of summary jurisdiction which may inflict penalties of not more than 200 pounds or six months imprisonment.

The board of trade may require local authority its authorities to establish other committees to whom the board may delegate all its powers, with a reduction to provide right of appeal by dealers from any order or decision of the local committees, and make provisions for the prevention of frivolous complaints. The board of trade may authorize local authorities under prescribed conditions to purchase and sell any article to which the act applies.

The act will continue in force six months unless parliament directs otherwise.
